### **Pro-Act Biotech and EcoSolutions Join Forces**

*Warren, RI, March 16, 2010* --- Two companies that use green technology to deliver environmental systems that treat wastewater for various industries are combining their strengths. Pro-Act Biotech is a leader in biological products and systems while EcoSolutions has the engineering expertise. Together, they can now deliver a new and completely customizable waste treatment solution from design to implementation.

Pro-Act Biotech of Warren, RI is a leading supplier of biological products used in environmentally friendly waste treatment systems for the concentrated animal feeding operation (CAFO), food waste and aquaculture industries.

EcoSolutions LLC of Westford, VT is a leader in environmental and ecological design. Dave Whitney, president and principal owner, is a civil and environmental engineer who provides engineering and ecological design services for low impact developments, wastewater treatment, storm water treatment, water reuse and pond systems.

“Pro-Act’s expertise in biological products combined with the engineering know-how of EcoSolutions results in a waste treatment system that is not only more effective but can be customized for most any situation,” explains Bill Campion, president of Pro-Act Biotech.

A number of industries could benefit from the joint force. The combined expertise of Pro-Act and EcoSolutions will tackle problems associated with excess BOD, TSS, FOG and others. The targeted industries include but are not limited to food processing, aquaculture, municipal waste treatment, and animal wastes from concentrated animal feeding operations.

For more information, contact Pro-Act Biotech at 1-800-772-3775.

**About Pro-Act.**

Pro-Act Biotech, Inc, the leading supplier of biological products, provides highly effective environmental treatment systems for the concentrated animal feeding operation (CAFO), food waste and the aquaculture industries.

More information is available by contacting Christa Grigorov at [ChristaG@proactbiotech.com](mailto:ChristaG@proactbiotech.com) or by calling 1-800-772-3775.

The environmental treatment systems of PRO-ACT BIOTECH® are protected by U.S. Patent No. 7,267,766. Other U.S. and foreign patents pending.

**About EcoSolutions LLC.**

EcoSolutions provides engineering and ecological design services for low impact developments, wastewater treatment, storm water treatment, water reuse and pond systems.
